IV WEBINAR

Smart Regions

26 November 2024

Brief Outline

Nearly everybody has heard about the idea of "smart city", fewer know what it means, very few have practical involvement in implementation of the concept. Dr. Jonathan Reichental covers the entire range: from theoretical definition to implementation. But in this webinar, we want to reach beyond the city within its administrative boundaries and look at the Smart City as a center and a driver of the associated Smart Region.

Join us for an engaging session with insights tailored for academics, offering a platform for Q&A and a look at the future of Smart Regions.
